February 19, 2019

Stephen LaBonte, Administrator
Bureau of Right of Way
JOM Building, Room 100
PO Box 483 | 7 Hazen Drive
Concord, NH 03302-0483

Dear Mr. LaBonte,

On behalf of the Conservation Commission in Hudson, NH, I am writing to request alternate land use consideration for all the state-owned land parcels associated with the Circumferential Highway Project. The alternate use requested is for “recreational purposes” to be used by our immediate community, region, and the entire state. A specified list of each of the parcels is included as an addendum to this letter as well as photographs of the parcels.

The land parcels held by the NH DOT Bureau of Right of Way have been enjoyed by our community for decades. This tract of land parcels is well known as a pristine forested area, with diverse topography and high-quality wildlife and wetland habitats. The Hudson Conservation Commission seeks your approval to *continue* to make these lands available and authorize land usage for our community to use for recreational purposes, defined as hiking, mountain biking, cross country skiing, snow shoeing, general wildlife observation and recreational enjoyment to the fullest extent possible. This request would also include permission for blazing, marking and trail building to enhance access and ease of use.

Although the plans to build the Circumferential Highway are still considered active on the State’s 10-year plan, your approval for recreational usage will fully increase opportunities for our residents to enjoy outdoor spaces and enhance their quality of life. We thank you for your consideration.

Sincerely,

Jennifer Parkhurst
On Behalf of Hudson Conservation Commission
