Re: **Request for Alternate Land Use**

Dear Ms. Parkhurst:

I write in response to the Town of Hudson Conservation Commission's request to use the Circumferential Highway Corridor for recreational purposes. I have recently had a conversation with Elvis Dhima, the Hudson Town Engineer. According to Mr. Dhima, granting the Conservation Commission's request would be contrary to the Town's intended future use of the corridor. As a result, the Department of Transportation is unable to grant your request.

I realize this is not the answer you hoped for, but unfortunately it is the Department's position at this time.

Sincerely,

Stephen G. LaBonte
Administrator
Bureau of Right-of-Way
